Multipurpose Facial Recognition Smart Device with Android System

FaceKiosk-V43 (43”)
FaceKiosk-V32 (32”)
FaceKiosk-H32 (32”)
FaceKiosk-H21 (21.5”)

Multipurpose
Time Attendance, Access Control, Image Display, Self-service Kiosk, etc.

Security
Encrypted Data, Encrypted Communications

Smart
Biometric Analysis on Age, Gender, etc.

Stability
7*24 Hours Stable Hardware Performance
### Product Definition

**FaceKiosk-V43**

**FaceKiosk**

**Shape**

**Size**

**Quad-core A17**

Product Introduction

The FaceKiosk multipurpose facial recognition smart device with Android system is a concrete foundation for customizable solutions with system development kit available so you can have your best-fit solution through secondary development in no matter which application scenarios such as school access control & class attendance management, self-service kiosk, hospitality payment & queuing solution, automatic ticket vending and so on.

FaceKiosk is a revolutionary product series of ZKTeco which combining the latest visible light facial recognition technology, popular Android operating system and a big touchscreen to offer a limitless potential of facial recognition application on every scenario that you can imagine. The series is a stepping stone for us to enable different biometric analysis on age, gender even behavior and integrate into different kind of application software. A software development kit will be available to make sure your engineer has the easiest further development on our FaceKiosk.

The product has already built-in ZKBioArgus APP to enable basic functions such as attendance, access control, advertisement display, also connection to ZKBioSecurity, BioTime and other ZKTeco software as server.

FaceKiosk will be an upmarket intelligent platform that can make your imagination come true.

Product Feature

- Face Recognition
- Liveness Detection
- Multi-language
- API
- Personnel Attendance
- Conference Register
- Face Comparison
- Advertisement

Product Advantage

- Accurate Identification
- Intelligent Control
- Light Supplement
- Easy Management
- Advanced Algorithm
- Access Control
- Blacklist
- Effective Safe
Solution of Application Scene
Smart Community

- Resident face registration
- Visitor management
- Face access control
- Community security management
- Intrusion warning
- Weather display

- Face entrance guard
- Visitor management
- Blacklist warning
- Community care

Face-Kiosk-Series
Smart Campus

- Face entrance guard
- Class Attendance
- Campus Security
- Book Lending
