4.3-inch Touch Screen & Facial Attendance Terminal

- **Battery Slot**
- **Power Key**
- **Door Sensor**
- **Tamper Alarm Button**

6. **Backup Data**

To avoid deleting data by misoperation, you can backup data to local or USB disk at any time.

- **Data Management→Backup Data**

8. Troubleshooting

1. The face cannot be recognized by the device in verification.

   **Solution:**
   - a. Check if your face expression, standing posture and distance during verification are the same as that in enrollment.
   - b. Check if the device is under direct sunlight or near the windows.

2. Verification fails if user wears glasses during verification but not in face enrollment.

   **Solution:**
   - You can enroll your face wearing glasses in the first or second time of face capturing, since the device supports 3 times of capturing face templates.

3. The device makes a misjudgment in verification.

   **Solution:**
   - There is a certain probability of misjudgment. You can re-enroll your face.
