1. **Introduction**

The QR10M module is a compact optical module. It not only has all the functions of the reader, but it can also integrate applications with various products in a flexible manner without the use of any accessories.
QR10L QR code reader is a highly integrated, high-performance QR code reader that includes the QR code scanning engine algorithm and driver. The product has a delicate appearance and is equipped with a high-speed processor, making it suitable for all types of users. The reader supports Windows, Android, and Linux operating systems.
2. Features

- It is the most recent and precise QR code Identification Technology.
- It is compatible with Windows, Android, and Linux operating systems.

3. Technical Specifications

</table>
### Types of QR Code
- QR code, PDF417, Data Matrix, MicroPDF417, and Aztec

### Operating Temperature
- -10°C to +50°C

### Operating Humidity
- 5% to 93% RH (Non-condensing)

### Operating Voltage
- 5.0V±0.25V (USB)

### Operating Current (Working Mode)
- 240mA

### Operating Current (Idle Mode)
- 50mA

### Anti-static Voltage
- ≥8kV

### Communication Interface
- USB keyboard, USB HID

5. **Driver Installation**

Insert the USB and open the device manager. The device will be displayed as shown in the figure.
It is not necessary to install the driver or use the SDK. After inserting the USB successfully, open the Notepad and scan the code directly. The public content will be displayed as the text of the successful scan, indicating that the device verification was successful.

Suggestions

1. Please keep the sensor away from dust.
2. Please use adhesive tape to clean the collecting area.
   
   Do not use water or other detergents, which may damage the sensor.
3. Please wipe the sensor with a wool-free cloth.
4. Please make sure the sensor is clean after each use.

Notes

- The product operating environment is indoors, and it is not recommended to install the product under direct sunlight.
- Please do not dismantle the product without proper guidance.
- The company cannot guarantee for any violations that interrupt the product activity.
Statements concerning Human Rights Privacy

Dear Customers,

First and foremost, thank you for utilizing ZKTeco’s hybrid biometrics products. We continue to research and develop hybrid biometrics products as a world-renowned biometrics core technology provider. We also pay close attention to the global compliance of relevant human rights and privacy laws.

Statements as follows:

1. ZKTeco does not save any personal data.
2. ZKTeco, as the equipment provider, shall bear no legal liability for any improper use.
3. If you have any concerns about the use of equipment in terms of human rights or privacy, please resolve them internally.

Other QR code devices or development tools from ZKTeco can collect the original image of a QR code. If users believe it is an infringement, they should contact the Government or the equipment’s end provider. ZKTeco, as the original manufacturer of the equipment, will bear no legal liability.

Users can refer to ZKTeco's official website to obtain relevant product information: http://www.zkteco.com.
